DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/15/04 has been entered.
2. The rejections of claims 1-3 under 35 U.S.C. 112, first paragraph, as lacking written description and enablement are withdrawn due to the amendment or cancellation of the claims, and Applicant's arguments. In particular, it is noted that exhibit B (Hirano et al., 1995; from the 10/23/03 response) establishes that human ERp57 and GRP58 are the same protein (see also page 6, 1st *pp* of the instant specification), whose structure is well known in the art (e.g., see Fig. 2). Likewise, exhibit D (Malinchik et al., 1998; from the 10/23/03 response) establishes that the human β -amyloid protein's structure is also well known in the art at the time of filing Applicant's specification.

The requirement for a species election from Paper No: 7 is hereby withdrawn, as now reflected in the instant claims (i.e., as it relates to "human" proteins).
3. Applicant's arguments filed 8/28/04 and 6/18/04 have been fully considered.

Art Unit: 1647

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 1 & 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As discussed above in *pp* # 2, human ERp57 and GRP58 are the same protein. However, claim 1 recites "human ERp57 or human GRp58"; thereby, being confusing.

It is suggested that amending claim 1 to "comprising the human chaperone protein ERp57/[or human] GRp58; and..." should obviate this rejection.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Robert Hayes whose telephone number is (703) 305-3132. The examiner can normally be reached on Monday through Thursday, and alternate Fridays, from 8:30 AM to 5:30 PM.
